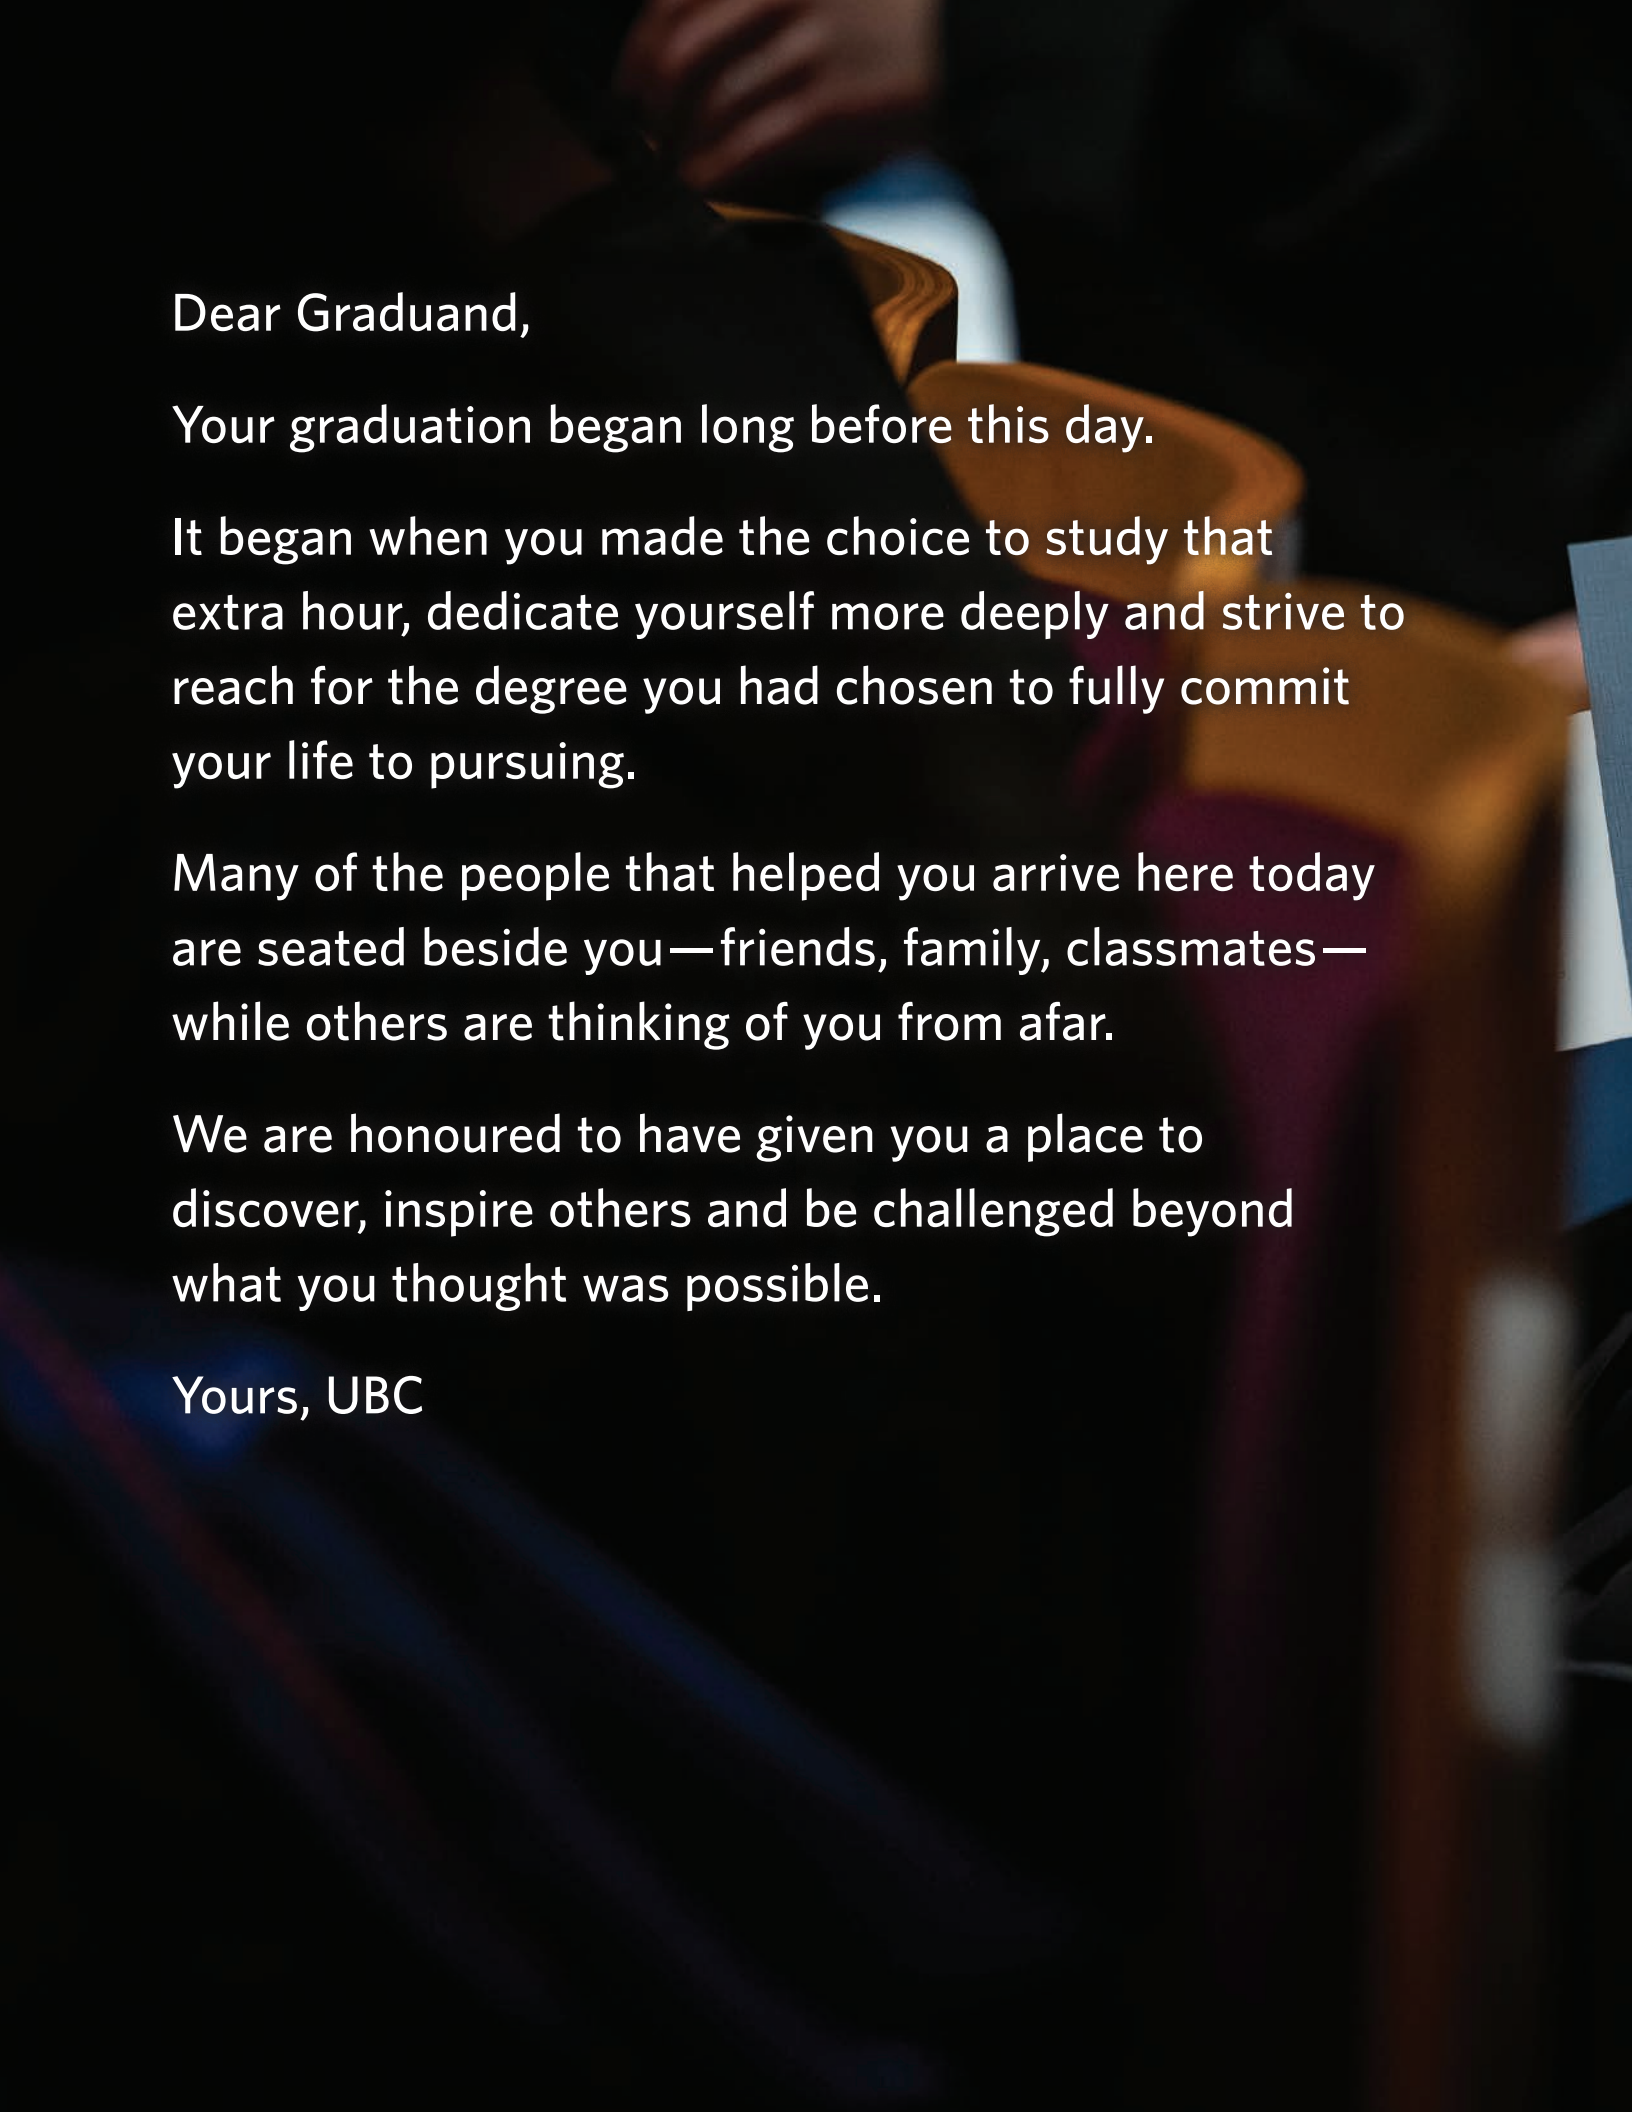
SPRING CONGREGATION 2024

MAY 22–24, 27–30

THE CHAN CENTRE FOR THE PERFORMING ARTS



Dear Graduand,

Your graduation began long before this day.

It began when you made the choice to study that extra hour, dedicate yourself more deeply and strive to reach for the degree you had chosen to fully commit your life to pursuing.

Many of the people that helped you arrive here today are seated beside you—friends, family, classmates—while others are thinking of you from afar.

We are honoured to have given you a place to discover, inspire others and be challenged beyond what you thought was possible.

Yours, UBC

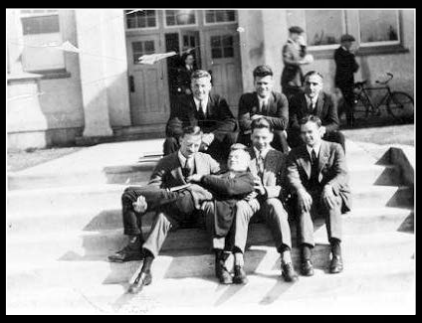
Reception Following the Ceremony
at the Robert H. Lee Alumni Centre

The UBC graduation journey has been forged by the spirit of the university's motto, *Tuum Est,* (meaning "it is yours") since 1915. Today, you, the graduating class of 2024, now shape UBC's history by making it your own.

1916

One of the first graduating classes was the Arts Class of 1916, pictured here at a party at the home of Mary Wilons. In UBC's first year, there were only three faculties: Arts, Applied Science and Agriculture, with 379 registered students and 34 faculty members.



1920s

The twenties saw the student-led Great Trek to UBC's new Point Grey campus, establishing the university as a place where students could help shape a better world. The AMS incorporated as a non-profit society and the university began awarding its first graduate degrees to students. In the *Ubyssey*, published in September 23, 1925, students described the new campus with a sense of wonder: "We are dazed with the appearance of architectural cleanliness and bewildered by our lineal freedom."

1940s

The forties were an era of tremendous change at the university as both students and faculty embraced the war effort. In 1943, new President Norman MacKenzie began in earnest to expand the university, and new departments were formed along with new buildings to house them. These included Brock Hall, the first student union building. By the 1950s, UBC had established itself as a comprehensive university and top choice for students in BC and beyond.

1960s

Student numbers continued to escalate alongside the scholarly activities that began to define UBC as a leader in research. The campus was alive with sixties counterculture, and a sixth president of UBC was elected by the name of Dr. Walter Gage. New student residences were created to respond to the expanding student body, as well as a new student union building. Students gained influence at the university and were elected to the University Board of Governors for the first time.

1980s

With over 34,000 students registered at the beginning of the eighties, UBC began attracting scholars from all over the world. Engineering students were in the news frequently for their pranks, which included the famous Ladner Clock Tower stunt, in which students pulled off hoisting a white Volkswagen Bug onto the top of the tower. Dr. Martha Piper was elected President in 1997 and ushered in an era of international engagement that saw UBC step onto the world stage as an educator and global centre for research excellence.

2000s

UBC's Okanagan campus was established in 2005 and in September of that year, 3,500 students started classes at the new institution alongside an opening ceremony celebrating the occasion. UBC's welcome in Syilx Okanagan territory was formalized with the signing of a Memorandum of Understanding which pledged to build long-term, collaborative relations.

2024

Sixty years ago, eight students arrived on campus to attend the first UBC Faculty of Dentistry class. Fast forward to today, UBC Dentistry is a leading dental school, offering an outstanding education curriculum, renowned research and a commitment to community engagement.

UBC Dentistry has graduated over 3,500 dental professionals who practice, educate and do research worldwide, strongly impacting their communities. We are proud of our accomplishments and look forward to the next 60 years!

TUUM EST

The University mace is a symbol of the authority of the Chancellor. It is displayed on ceremonial occasions, most notably during graduation ceremonies but also during the installation of a president or chancellor.

THE UNIVERSITY MACE

In the fall of 1957, the University commissioned Haida carver Bill Reid to undertake the project. Owing to Reid's heavy workload, he suggested that George Norris be asked to help design and carve the mace. The planning of the mace took some time and a final design was not approved until 1959.

Norris carved the mace from a block of yew and it included a stylized thunderbird on the thick upper portion. The mace also featured the use of copper that was prominent in Northwest Coast native art. This copper trimming was designed and prepared by Bill Reid. Norris completed the mace in 1959 and it was first used at the fall graduation ceremony where the Director of Ceremonies, Malcolm McGregor, carried it for the first time.

CEREMONIAL REGALIA

The hoods, gowns and hats worn by those participating in the academic ceremonies are lined with colours to indicate the degree they have been conferred, a tradition dating back to the Middle Ages when the first universities were founded.

In 2019, UBC approached the xʷməθkʷəy̓əm (Musqueam) and Syilx Okanagan Nation to collaborate on a project that would add Indigenous symbols of host nations of each respective campus to the academic regalia of senior administration.

Chrystal Sparrow, a third-generation xʷməθkʷəy̓əm artist and carver from the xʷməθkʷəy̓əm Indian Band, was selected by a committee with representatives from each campus and host nation, and she designed the new regalia for the Chancellor, members of the Board of Governors and the President and Vice-Chancellor. These new regalia were introduced to the UBC community and worn for the first time at UBC's fall 2020 academic ceremonies.

GRAD CLASS LEGACY

UBC students have a rich legacy of giving gifts and donations to the UBC Vancouver campus. Since 1919, there has been a tradition of gifting and/or dedicating a tree in honour of the graduating class.

The 2024 grad class tree is a Red Oak (*Quercus rubra*), located on the east side of Main Mall immediately north of University Boulevard.

The gift to the University serves as a memorial to the outgoing class, a token of appreciation to the school and a reflection on time spent as students at UBC.

For 2024, in addition to the traditional graduating class tree, the AMS will be constructing a Sensory Room in the Nest, a tranquil space where students with disabilities can retreat and de-stress from the sensory overload of the typical university environment.

This year's gift also includes the installment of needle disposal bins and menstrual product dispensers in the universal washroom at the Nest promoting safety and accessibility. Lastly, the class is proud to present an all-recyclable, outdoor playground that will be built on campus, nurturing the inner child of each and every one at UBC.

On behalf of more than 400,000 UBC alumni from around the world, it is my pleasure to bring greetings and congratulations to members of the graduating class.

Indeed, the completion of degree requirements exemplifies intelligence, discipline and resourcefulness. But beyond these traits, my greatest hope is that your university experience has taught you new ways of thinking, and specifically a greater understanding of the importance of reliable evidence in the pursuit of truth and informed opinion.

Irrespective of what program or degree you have completed, you have invariably been asked to examine divergent theories and then present your own conclusions along with evidence to support them. Indeed, the ability to find and present reliable evidence is the most important outcome of a university education.

My challenge to you as UBC graduates is to continue to be truth seekers on the journey ahead, and to continue to refine your research skills as you navigate what may at times seem to be a turbulent world. You may pleasantly discover that these modern challenges can have a unique way of fostering greater measures of much-needed prudence and graciousness. But only if we are relentless in the pursuit of truth, and of corresponding actions that serve the greater good of humankind. Only then can our spirit and our character truly prevail.

I also encourage you to regard your UBC graduation not as the end of a journey but as the beginning of a new one, as alumni of one of the world's most renowned centres of learning and research. We hope that you remain engaged with your university and your fellow alumni, and that you will work together with them to create a more just, compassionate and sustainable world.

Again, warmest congratulations and best wishes to all.

— THE HONOURABLE XWĚ LĪ QWĚL TĚL STEVEN POINT, O.C., O.B.C., LL.B. (BR. COL.), LL.D. *HON* (BR.COL.)
Chancellor

You should be exceptionally proud, and we are exceptionally proud of you!

Congratulations! As the 17th President and Vice-Chancellor of the University of British Columbia, I am truly honoured to mark this important milestone with you.

Tuum Est. It is Yours.

I am inspired to evoke these sage words, which have been the university's motto for over 100 years. They so elegantly capture both UBC's promise to you and your boundless potential.

You are now a graduate of UBC and I hope you will carry those words with you as you embark on the next chapter of your life's journey. May they always be a reminder of all that dwells inside of you and of the agency you possess to shape a better world.

Graduating with a degree from one of the top 40 universities in the world helps to open doors and you are on your way to a successful and self-determined life. Please take the time to pause, savour the moment, and reflect upon how you now stand at the threshold of your next great adventure.

Looking back to UBC's first graduating class in 1916, it is clear how much smart, engaged people like yourselves have changed this country and made it a better place. Over that period, our university has changed from a small, provincial university to a global research and innovation powerhouse with a community of more than 400,000 alumni from 160 countries around the world.

UBC alumni thrive in every realm of achievement—as scientists, artists, entrepreneurs, educators, and leaders—helping to address the most pressing issues of our time. They do incredible, world-changing things, and you are now a part of this amazing community.

In the same way, think about how much you yourself have changed in your time at UBC. Think about all the people you met, the discussions you had, and the contributions you made. Taken together, these experiences have shaped you in ways that will serve you well as you rise to meet the challenges of the world.

The road ahead will inevitably present its share of challenges. Remember that it is not the challenges we encounter that define us, but how we choose to face and navigate them.

Each of you has the capacity and skill to succeed and make our world a better place. UBC has been honoured to serve as your home, and please know that you will always be welcome here.

You should be exceptionally proud, and we are exceptionally proud of you! Again, all my congratulations and I wish you the very best as you enter the next phase of your journey.

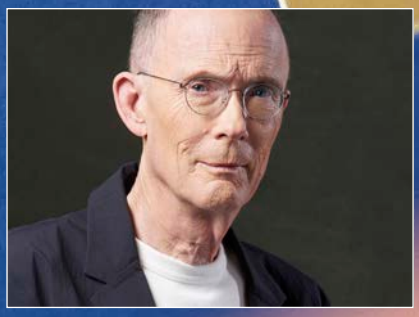
Honorary degrees recognize individuals who have made substantial contributions to society. Conferred *honoris causa,* "for the sake of honour," these degrees are awarded as one of three types: Doctor of Laws, Doctor of Letters and Doctor of Science.

Professor Izzeldin Abuelaish

Izzeldin Abuelaish is a professor at the Dalla Lana School of Public Health at the University of Toronto and an advocate for women's education, human rights, and health as key pillars to achieving lasting peace. Born and raised in Jabalia Refugee Camp in the Gaza Strip, he made history as the first Palestinian to complete his residency in obstetrics and gynecology in Israel where he fearlessly provided compassionate medical care, becoming a symbol of hope in improving Israeli-Palestinian relations. In 2009 he lost three daughters during an Israeli offensive in Gaza. In memory of his daughters and as a tribute to his commitment to women's empowerment, he founded Daughters for Life Foundation, a Canadian charity that exemplifies his unwavering belief that thriving, empowered communities are the bedrock of a peaceful society.

Hossein Amanat

Hossein Amanat was among the first Iranian architects who distinguished their work by adhering to contemporary principles while applying lessons from traditional architecture. At a time when most architects were following the European International Style, Amanat was creating an original fusion of modernity and tradition. He established his international reputation at age 24, when he won a nationwide competition for the design of the Azadi Tower (formerly known as the Shahyad Tower) in Tehran. This early success led to numerous commissions for several of Iran's most complex modern buildings, including its embassy in Beijing. After moving to Canada in 1980, his practice expanded and diversified, resulting in an even wider range of prestigious commissions and further securing his prominent place in the pantheon of great architects.



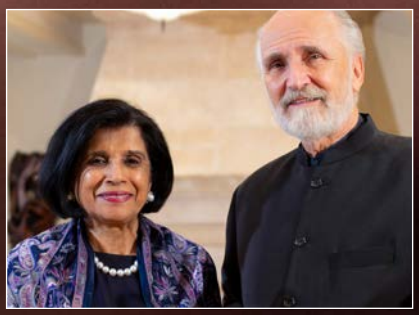
William Gibson

UBC alumnus William Gibson emerged as a science fiction writer in the 1980s and has since produced a body of work including novels, short fiction, non-fiction and screenplays. His first novel, Neuromancer, which introduced both the now commonplace concept of "cyberspace" and the term itself, has been one of the more influential novels of the late twentieth century. He is a featured speaker at a wide range of conferences and a favoured source for journalists and other writers researching the reciprocal links between technology and society.

Dr. Austin Mardon, O.C.
Dr. Austin Mardon is an accomplished geographer, writer, and researcher. As the founder of the Antarctic Institute of Canada, he has actively sought to provide opportunities for students to engage in meaningful work related to polar research, exploration, and environmental preservation. His legacy as a visionary and mentor is reinforced by significant contributions to the academic and professional development of students at the University of British Columbia. He is also renowned for making significant contributions to the field of mental health and disability advocacy. His personal journey with schizophrenia has given him a unique perspective and empathy for those facing similar challenges, underlined by his role as an advisor to the Mental Health Commission of Canada and by shining a spotlight on the necessity of embracing diverse perspectives and destigmatizing mental illness.

Ry Moran
Ry Moran is a champion for Truth, Reconciliation and human rights domestically and abroad and is widely recognized as a visionary leader for building and sustaining relationships that advance equity, diversity, inclusion and Indigenous rights. As founding Director of the National Centre for Truth and Reconciliation (NCTR), he was responsible for laying the strategic foundations of the organization, while working in close collaboration with national partners to advance its mission, vision, and mandate. Previously he was Director of Statement Gathering and the National Research Center for the Truth and Reconciliation Commission of Canada, which was mandated to gather survivor statements, along with collecting residential school records from church and government archives. In his current role at the University of Victoria as the inaugural Associate University Librarian for Reconciliation, he actively works to create spaces for decolonized practices within the library and beyond.

Dr. Rosemary Elizabeth Ommer
Dr. Rosemary Elizabeth Ommer is an economic historian and geographer with an international reputation for her ground-breaking contributions across multiple fields and disciplines. During the first three decades of her career, she designed and led international and transnational research initiatives in the fields of social-ecological systems, coastal communities and informal economies, the history of fisheries and environmental degradation. Her more recent work has focused upon mentoring second-generation researchers working in diverse fields through her leadership roles on advisory committees for Canadian and international major grants and research programs. She has strong and enduring connections to the University of British Columbia, nurtured through collaborative writing and research projects with students and faculty, and by chairing advisory committees for major programs of research, including the UBC Institute for the Oceans and Fisheries.



Arran Stephens, O.B.C.
& Ratana Stephens, O.B.C.
Arran and Ratana Stephens have been partners in life and in business for more than 50 years, and everything they have achieved together has been driven by their shared lifelong mission: to always leave the earth better than they found it. Since founding Nature's Path together, Arran and Ratana have grown the company to become the largest organic cereal manufacturer in North America, selling products to more than 50 countries around the world. Lifelong stewards of the environment, the Stephens supported the 2008 Save the Farm campaign, which led to the rezoning of the UBC Farm as green academic space in the University's land use plan. Since that time, they have contributed more than $40 million to various other philanthropic and community service efforts, including food banks, hospitals and learning institutions.

UBC's 21-member Board of Governors comprises the Chancellor, the President, eleven persons appointed by the Lieutenant Governor, three faculty members elected by faculty, three full-time students elected by students and two people elected by and from the full-time employees of the university who are not faculty members.

By legislation, the board is responsible for the management, administration and control of the property, revenue, business and affairs of the university including the appointment of senior officials and faculty on the recommendation of the president. The governors represent diverse backgrounds, which provide valuable input during board deliberations.

Welcome, Class of 2024, to your new and honoured place among more than 400,000 UBC alumni in 160 countries. That's a powerful network to help build your life and make a real difference.

Many students don't realize that when you graduate from UBC, you automatically become a member of *alumni UBC* and your relationship with the University enters a whole new phase.

You might be surprised at just who your fellow alumni are, and their levels of accomplishment, influence and contribution to society. No matter where you go, you will find yourself in the company of amazing people who are making a real difference in the world—educators, artists, doctors, nurses, business and community leaders—UBC grads who will be your role models, mentors, colleagues and friends. *alumni UBC* will help you connect through our email updates, website and social networks.

You can participate in our mentoring, cultural, education and career-building programs, here in Vancouver and around the world through alumni networks as far away as London, Hong Kong and Seoul, or as close as Victoria, Calgary and Toronto.

On the Point Grey campus, the Robert H. Lee Alumni Centre is your alumni home for life, where you can make alumni connections, attend events or book your own meetings or celebrations.

Remember our motto: *Tuum Est* ("It is yours"). UBC is still yours.

It will always be yours. So reach out. Stay in touch. Ask for help when you need it. Lend a hand when you can.
